

BEST AVAILABLE COPY

PRECIPITATE NUCLEIC ACIDS. IN COLOR!

Pellet Paint™ Co-Precipitant

A highly visible, inert carrier for routine use in DNA or RNA precipitation.

- 5 minute procedure; 100% recovery of even the most dilute samples
- Pink pellets are easily located—no more lost samples!
- Qualified for sequencing, PCR, cDNA synthesis, ligation, transformation, restriction digestion, random priming, gel electrophoresis, *in vitro* transcription, *in vivo* translation, kinase reactions

Patent pending
